Main reforms

Redesigning the statute of the Central Bank

01

Enhancing the independence of the BCT for achieving its objectives and conducting its main functions

02

Recognition of the role of the BCT and its contribution to maintaining financial stability and preventing systemic risk by enabling the Central Bank to act as lender of last resort and setting up a macroprudential oversight and financial crisis management committee

03

Enhancing the role of the Banking services Observatory to reshape it as a Financial Inclusion Observatory

Reshaping the Bank Act

01

Reorganizing the banking market

02

Revising the conditions governing access to the industry and licensing

03

Enhancing prudential supervision

04

Introducing a full mechanism for managing difficulties

05

Setting up a deposit guarantee fund

Main reforms

Devising a national strategy for Financial inclusion by 2018-2022

BCT spearheads in-depth research on implementing a decashing and proposes an action plan for that purpose

Modernizing the legal framework for the emergence of new payment institutions

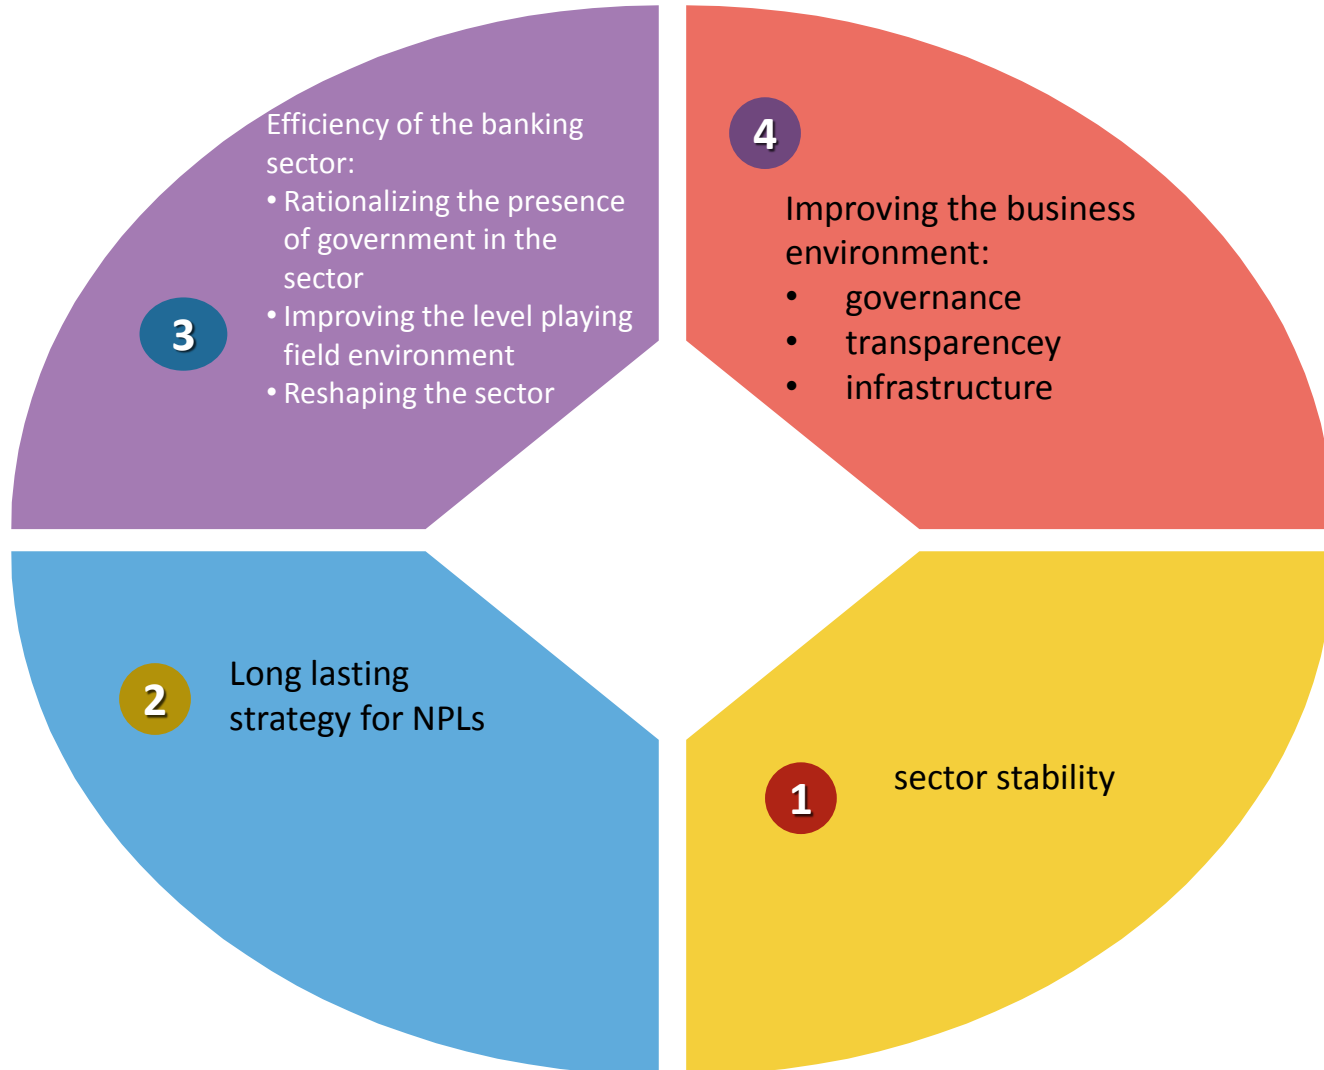

Tunisians have a preference for cash which has led to an unprecedented increase in MCBs and a contraction of bank liquidity

- *Promoting Digital Finance
- *Developing Micro insurance
- *Setting up a system for refinancing MFIs
- *Building up a consensus culture on a solidarity-based and social economy
- *Promoting financial literacy

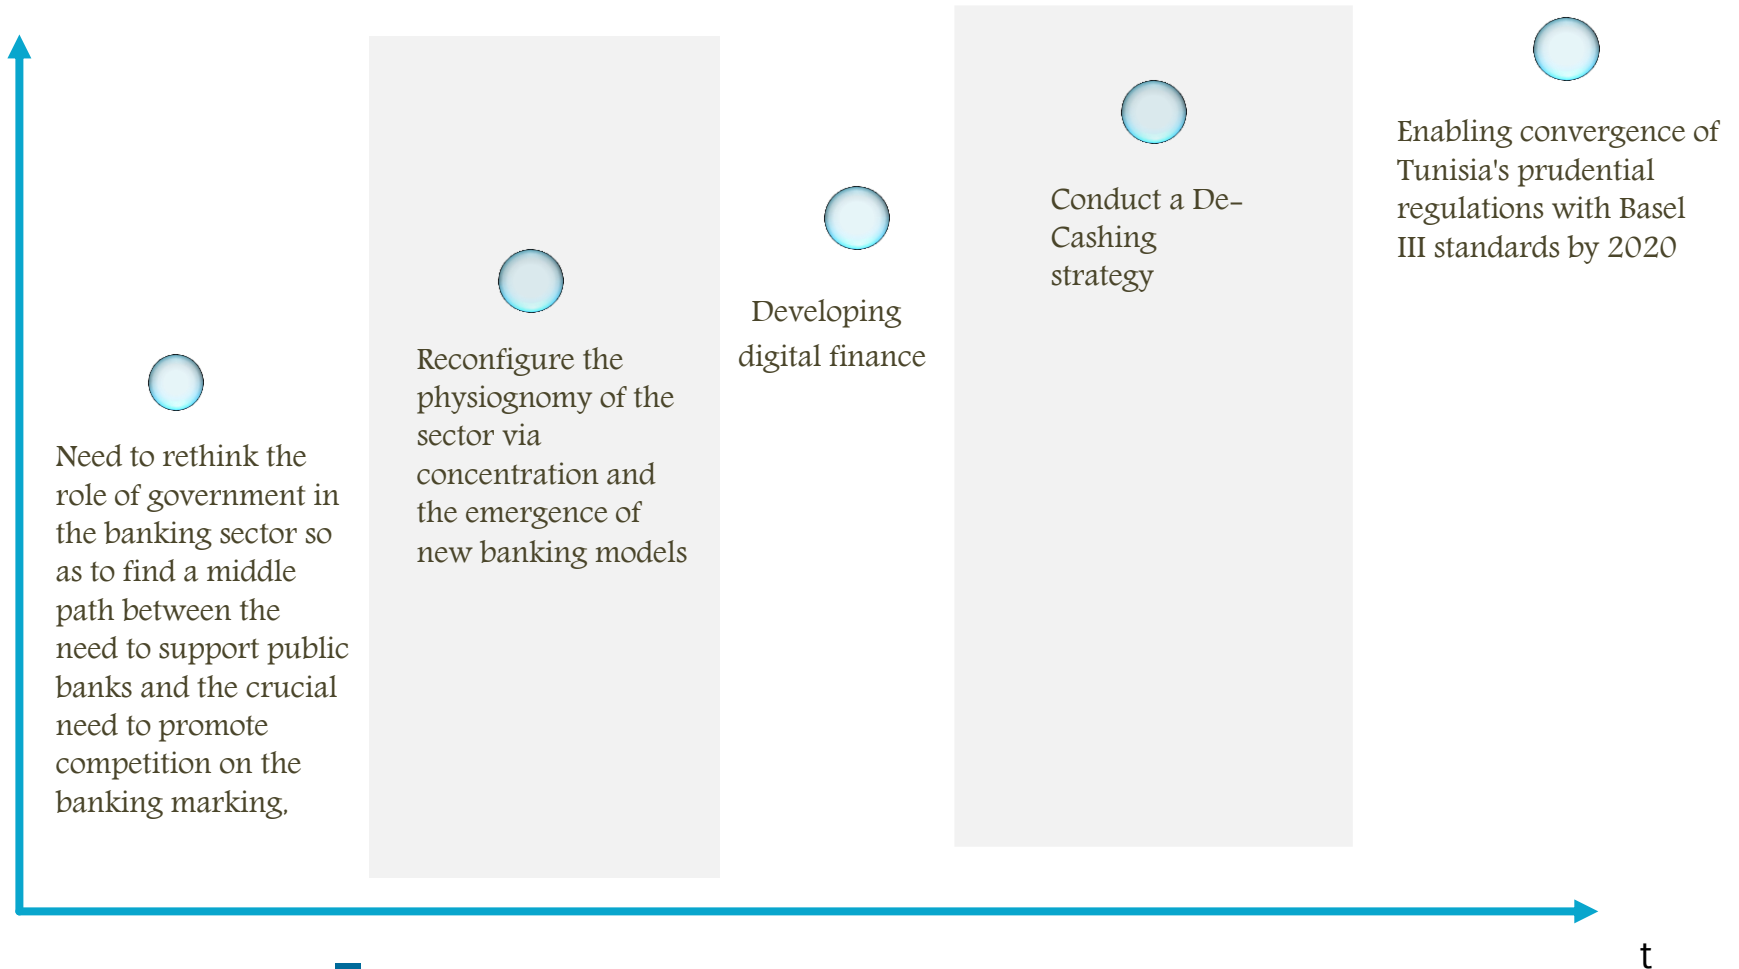

- lowering the threshold for cash transactions
- promoting financial literacy
- Developing the use of electronic equipment in public administrations

Introducing a regulatory and operational framework for operating as a payment institution

Challenges & Outlook for banking regulations

CHALLENGES & OUTLOOK FOR BANKING REGULATIONS
